

Chairman's Run Report 2024

11 hardy souls turned up at The Bluebell Bishopton for the start of the Chairman's run on Sunday the 14th July.

It was a tad damp with excellent views being obscured by the mist. However all made it to the lunch stop, Mr McNish a little late after having to recover his footrest and footrest nut from the roadside.

We had an excellent time in the very noisy Black Swan in Kirkbymoorside, (it was a lot quieter when we all left) with people joking about "fords" they had been through on the morning route, little did they know what was to come.

The afternoon route had three fords with Westerdale being the most challenging. Most riders either took a detour or manhandled their bikes across the footbridge. However 2 idiots, sorry heroes rode their bikes through!! Namely Rachael Houchin and Paul Brown.

Everyone made it back to the Bluebell without incident and again there was plenty to laugh and joke about at the end. Thanks to everyone who turned out and made all the effort worthwhile.

Paul, Yvonne and Victoria.
