

## Newsletter - June 2019

Looking back to May, the main section event was, of course, the Quaker weekend with a mix of two social runs led by Brian Smith and the Quaker Run itself. There is a write-up and pictures in the Home link on this site and which only leaves us to congratulate award winners and thank participants, marshals and Martin, David, Jane and Rob of the Porteous family for putting on such a good show which we appreciate given their recent sad loss.

The championship trial at Wensley attracted 15 entrants and was won by Paul Harrison from Graham Powell and David Headon. Full results are in the Trials link.

The section calendar gives events for June and further out although the Lakeland weekend has been cancelled. Due to my failure to meet the publishing deadline for this Newsletter, Dave Headon's Social Run and Concours has been and gone with Dave once again failing to adequately appease the Rain Gods although I understand that participants were double those of last year.

Regulations are available for Eric's Evening Excursion and, for those having a bike from 30's/40's, there will be an Armed Forces Day on 29<sup>th</sup> June at the National Museum of the Royal Navy at Hartlepool for which the organisers would like 3 – 5 machines on display. Bobby Robinson is the contact.

On a sad note, many of you will have known Harry Knight who has passed away and who was cremated on 22<sup>nd</sup> May. Harry was a regular supporter of section activities in times past and is a sad loss.
