

## Newsletter October 2020

September has been a rather quiet month socially, with only a handful attending our club nights although some have been seen riding and maintaining machines.

Five members attended a business meeting at MSG cricket Club on 1st October

Sad to report that Shirley Fisher has died. Members of our section may remember her as the wife of Ron our first treasurer and as the lady who helped Denise Londesbrough prepare refreshments for Eric's Evening Excursion for over thirty years.

Part of the strength of our section derives from the support that lady partners contribute through their presence, sometimes assisting in organising and marshalling, or participating as riders or passengers on pillion or sidecar. There have been many over the years, which has led to the section having a travelling contingent to support VMCC events across the country.

Please keep an eye on the website or check for details of future event as we still expect to have an AGM on 26th November.

A social run on the 11th Oct in place of the Anniversary Run. will now take place - Details [here](#)
